

At Bloom360 Learning Community, we believe:

- Every child is capable of learning and growing when their social and emotional needs are met.
- Success is measured by the ability to attune to one's own needs and apply learning across environments, experiences and relationships, not by memorization and written tests.
- Behavior is communication that needs to be understood.
- Sensory needs are unique. Movement and strategies to satisfy those needs can be taught.
- A child's strengths and interests are superpowers.
- Project-based learning is the most effective way to learn, apply and demonstrate knowledge.
- In a growth mindset. The sky is the limit!

Social-Emotional Learning (SEL) Opens Doors

Bloom360 provides a nurturing, strengths-based environment and leads with social-emotional learning. Our Learners have specific social-emotional learning goals and customized high-interest projects serve as practice zones for the child to engage, explore and grow. This approach supports academic success, school and civic engagement, health and wellness and opens doors for fulfilling opportunities in adulthood.

- Each year, Bloom360 Learners average **15% growth** toward their individualized SEL goals.

National Research Shows:*

- Youth who participate in SEL programs make immediate and long-term gains. Up to 18 years later, students with SEL experience do **better than peers with behaviors, skills, attitudes and academics.**

- Students in SEL programs show an **11% gain in academic achievements.**

- Eight in 10 employers say social and emotional skills are the most important to success and yet are the hardest skills to find.

Project-Based Learning (PBL) Leads to Deeper Learning

Learners work on individual or small group projects that require crucial skills for future success

Creativity

Critical
thinking

Problem
solving

Communication

Collaboration

Transformative Benefits of PBL

Research indicates that PBL can promote student learning even more effectively than traditional instruction.

www.pblworks.org/research

- Engaged hearts and minds
- Deeper learning
- A sense of purpose
- Creative outlets to demonstrate knowledge vs. traditional worksheets, memorization and tests

PBL at Bloom360

School-wide and individual projects are customized for each Learner based on their interests, strengths, academic goals and developmental readiness. Each Learner has an individualized Developmental Learning Plan where PBL projects are measured by a four-point scale of understanding:

1. Introductory

2. Partial

3. Basic

4. Confident

For the 2022 - 2023 school year, Learners met **43 Common Core Standards**, completed **8 individual projects**, **10 group projects** and **4 school-wide projects**.

Projects start with a driving question. Recent examples include:

- How can I use my love of pets to create a micro-business?
- How can I (a high school Learner) best support my overall health and wellness through sleep, nutrition, exercise and stress management?
- How can we work together to support the Food Bank in our town?
- How can I explore future careers that would best fit my character strengths and interests?

College/University Fieldwork Site

Bloom360 has been selected by several area schools as a fieldwork placement site for college students studying occupational therapy, occupational therapy assistant and social work. Our innovative program and mentoring from our team provide a one-of-a-kind experience. More info is on our website.
