

Growth That Goes Beyond Academics

Bloom360's 2025–2026 Learner Growth Report highlights meaningful progress across academics, social-emotional learning, and project-based learning. From advancing individualized goals to completing hands-on projects aligned with Common Core standards, our Learners continue to build the skills and confidence that prepare them for lifelong success.

Fishing Fun: A Favorite Bloom360 tradition

Recently, our Learners enjoyed their annual fishing outing hosted by the wonderful M.A. Dailey Foundation! It was a beautiful day filled with fresh air, friendship, and plenty of opportunities to learn and grow.

Fishing offers so many benefits beyond catching a fish. It helps build patience, perseverance, focus and confidence while supporting movement needs through the calming rhythm of casting and reeling in nature. Along the way, Learners also practice important life skills problem-solving, decision-making, hand-eye coordination, and fine motor skills.

Fishing is a fun way to make lasting memories and support meaningful growth.

Growing More Than a Garden

From researching and budgeting to planting and harvesting, BizPath participants are growing more than a garden. Their project-based learning is cultivating planning, teamwork, and confidence—and soon, their fresh vegetables will become ingredients in Community Café lunches for the Bloom360 community.

BizPath Scholarships Available

BOWL for Bloom

Presented by

BAIRD

Baird Funds

Bloom Together. Bowl Together.

Lace up some bowling shoes and get ready for some family fun!

Your registration includes:

Everyone deserves to belong.

At Bloom360 Learning Community, neurodivergent Learners are known, valued, and supported from day one. Through trust, meaningful relationships, and individualized learning, they build the confidence to grow because when Learners experience belonging, learning naturally follows.

It's not too late to find the right fit.

Schedule a tour and discover the Bloom360 difference.
